Udaipur, Rajasthan | abbasali.dalal07@gmail.com | +91-6375935703 | [abbasdalal.vercel.app](https://abbasdalal.vercel.app)

## PROFESSIONAL SUMMARY

Software Engineer with 1+ year experience in full-stack development using React.js, Node.js, and Spring Boot. Proven ability to build responsive web applications, implement CI/CD pipelines, and integrate cloud-based solutions. Seeking frontend and backend development opportunities to leverage Agile development and DevOps expertise.

## SKILLS

Languages	Javascript, Typescript, Java
Tools/Frameworks	React.js, Next.js, React Native, Nodejs, Spring Boot
Databases	MongoDB, SQL
Dev Ops	Docker, Git, SonarQube

## WORK EXPERIENCE

Frontend Developer

Sept 2024 - Present

Crescentic Technologies, Udaipur

- Developed and maintained features for a collaborative web platform, improving user experience and functionality across multiple modules
- Implemented comprehensive **unit testing** and **SonarQube** analysis via **Docker**, increasing test coverage from 19% to 75% on a 100,000+ lines of code.
- Used **Git** repository for **version control** system like **Bitbucket** and daily stand-up contributions in **Agile sprints**
- Designed and developed **dynamic forms** using **SurveyJS** integration with Angular, enabling flexible **data collection** and user input management

Full Stack Developer (Internship)

Jan 2022 - Dec 2022

Websenor Infotech, Udaipur

- Developed core user interaction modules for **asset tokenization platform** using **Next.js**, resolved critical bugs and streamlined workflow processes
- Built **e-commerce** application foundation with **Next.js**, implementing order management, checkout system, and **payment gateway integrations** (Stripe, PayPal)
- Created cross-platform mobile application using **React Native** with **REST API** integration for **dynamic data rendering** and user interactions
- Managed application **deployment** on **Vercel/Netlify**, configured production builds and environment variables for staging and live environments

## PROJECTS

Zephyry

July 2024

A Collaborative Project Management Web Application

- Zephyr is a full-stack project management application using Next.js and Java Spring Boot with RESTful APIs for team collaboration and task management
- Implemented secure authentication system using Spring Security and JWT tokens for user authorization and role-based access control
- Integrated Apache Kafka for real-time messaging, enabling seamless team communication.
- Built comprehensive CRUD operations with MySQL database integration for efficient project, task, and user data management

## EDUCATION

Master of Computer Application

Jan 2024 - Dec 2025

SRM Institute of Science and Technology - Chennai, Tamil Nadu • CGPA: 9.0

Bachelor of Computer Application

Sept 2020 - Aug 2023

Mohanlal Sukhadia University - Udaipur, Rajasthan • CGPA: 7.3
